Continuing Disclosure Compliance History

Despite being posted timely, operating data filed in connection to the fiscal 2016 was inadvertently not linked to the Town’s 2016 series of bonds. The Town’s base CUSIP was changed by 1 digit for the 2016 bonds which resulted in an administrative error. The operating data was however filed to all other outstanding bonds of the Town.

The following table sets forth the dates in which the Town filed annual operating data and its independent audit reports for the last five completed fiscal years.

(1) Represents date of audit letter. Public release of the audit occurred after this date on the date when the audit was accepted by the Town Board.

(2) Represents the date in which the audit report was filed with the Municipal Securities Rulemaking Board (the “MSRB”).

(3) Represents the date in which annual operating data was filed with the MSRB.

(4) The Town was in the process of completing the unaudited annual update document when the 2014 through 2017 operating data was filed. As a result, the filing did not include unaudited financial information for the 2013 through 2015 fiscal years. The Town subsequently filed the 2013 through 2015 audit reports on July 24, 2014, July 21, 2015, and September 23, 2016, which was within the required 60 day timeline. Unaudited results were filed with the Towns 2017 operating data.

On September 19, 2019, the Town filed an event notice related to the late filing of its audited financial statements for the fiscal year ended December 31, 2016.

The Town has reviewed its continuing disclosure practices to ensure that all material event notices and annual filings are filed in a timely manner.
