PRELIMINARY OFFICIAL STATEMENT DATED OCTOBER 9, 2024

SERIAL BONDS BOND ANTICIPATION NOTES

Ratings: See "Ratings" herein

In the opinion of Harris Beach PLLC, Bond Counsel to the Town for the Bonds and Notes, under existing statutes, regulations, administrative rulings, and court decisions, and assuming continuing compliance by the Town with its covenants relating to certain requirements contained in the Internal Revenue Code of 1986, as amended (the "Code"), and the accuracy of certain representations made by the Town, interest on the Bonds and the Notes is excluded from gross income of the owners thereof for Federal income tax purposes and is not an "item of tax preference" for purposes of the Federal alternative minimum tax imposed on individuals. However, interest on the Bonds and the Notes held by certain corporations that are subject to the Federal corporate alternative minimum tax is included in the computation of "adjusted financial statement income" for purposes of the Federal alternative minimum tax imposed on such corporations. Bond Counsel is also of the opinion that under existing statutes interest on the Bonds and the Notes is exempt from personal income taxes imposed by the State of New York or any political subdivision thereof (including the City of New York). No opinion is expressed regarding other Federal or State tax consequences arising with respect to the Bonds and the Notes. See "TAX MATTERS" herein.

The Bonds and Notes **will not** be designated by the Town as "qualified tax-exempt obligations" pursuant to Section 265 of the Code

THE BONDS AND THE NOTES

Nature of the Obligations

Each Bond and Note when duly issued and paid for will constitute a contract between the Town and the holder thereof.

The Bonds and the Notes will be general obligations of the Town and will contain a pledge of the faith and credit of the Town for the payment of the principal thereof and the interest thereon. For the payment of such principal of and interest on the Town has the power and statutory authorization to levy ad valorem taxes on all taxable real property in the Town, subject to certain applicable statutory limitations imposed by Chapter 97 of the New York Laws of 2011, as amended (the "Tax Levy Limitation Law." (See "TAX INFORMATION – Tax Levy Limitation Law" herein).

Under the Constitution of the State, the Town is required to pledge its faith and credit for the payment of the principal of and interest on the Bonds and the Notes, and the State is specifically precluded from restricting the power of the Town to levy taxes on real estate therefor. The Tax Levy Limitation Law imposes a statutory limitation upon the Town's power to increase its annual tax levy. As a result, the power of the Town to levy real estate taxes on all the taxable real property within the Town subject to certain applicable statutory limitations set forth in Tax Levy Limitation Law, unless the Town complies with

certain procedural requirements to permit the Town to levy certain year-to-year increases in real property taxes. (See “*TAX INFORMATION - The Tax Levy Limitation Law,*” in Appendix A hereto).

Optional Redemption for the Bonds

The Bonds maturing in the years 2025 to 2032, inclusive, are not subject to redemption prior to maturity.

The Bonds maturing on or after October 15, 2033 will be subject to redemption prior to maturity, at the option of the Town, on any date on or after October 15, 2032, in whole or in part, and if in part in any order of their maturity and in any amount within a maturity (selected by lot within a maturity), at the redemption price equal to the principal amount of the Bonds to be redeemed, plus accrued interest to the date of redemption.

Notice of Redemption

If less than all of the Bonds of any maturity are to be redeemed, the particular Bonds of such maturity to be redeemed will be selected by the Town by lot in any customary manner of selection as determined by the Town Supervisor. Notice of redemption shall be given by mailing such notice to the registered holders of Bonds to be redeemed at their respective addresses as shown upon the registration books of the Town as Paying Agent at least 30 days prior to the date set for any such redemption. If notice of redemption shall have been given as aforesaid, the Bonds so called for redemption shall become due and payable at the applicable redemption price on the redemption date designated in such notice, and interest on such Bonds shall cease to accrue from and after such redemption date.

Optional Redemption for the Notes

The Notes are not subject to optional redemption prior to maturity.

Book-Entry-Only System

The Depository Trust Company (“DTC”), New York, New York, will act as securities depository for the Bonds and for those Notes issued as book-entry notes. The Bonds and such Notes will be issued as fully-registered bonds and notes registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered bond certificate will be issued for each maturity of the Bonds, and will be deposited with DTC. One fully-registered note certificate will be issued for each Note bearing the same rate of interest and CUSIP number, and will be deposited with DTC.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of the Bonds and Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds and Notes on DTC’s records. The ownership interest of each actual purchaser of each bond and note (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written

confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds and the Notes are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds and the Notes, except in the event that use of the book-entry system for the Bonds and the Notes is discontinued.

To facilitate subsequent transfers, all Bonds and Notes deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of the Bonds and the Notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds and the Notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds and Notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Redemption notices shall be sent to DTC. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Bonds and the Notes unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Town as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds and the Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the Bonds and the Notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the County, on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC or the Town, subject to any statutory or regulatory requirements as may be in effect from time to time.

Payment of principal and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Town, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds and the Notes at any time by giving reasonable notice to the Town. Under such circumstances, in the event that a successor depository is not obtained, Bond and Note certificates will be printed and delivered.

The Town may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, bond and note certificates will be printed and delivered.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the Town believes to be reliable, but the Town takes no responsibility for the accuracy thereof.

Certificated Bonds and Notes

DTC may discontinue providing its services with respect to the Bonds and the Notes at any time by giving reasonable notice to the Town and discharging its responsibilities with respect thereto under applicable law, or the Town may terminate its participation in the system of book-entry-only transfers through DTC at any time. In the event that such book-entry-only system is discontinued, the following provisions will apply: The Bonds and Notes will be issued in fully registered form in denominations of \$5,000 each or any integral multiple thereof for any single maturity, except for one necessary odd denomination for the Bonds maturing October 15, 2025 and one necessary odd denomination for the Notes. The Town will act as Paying Agent for such Bonds and Notes. Interest on the Bonds will remain payable on October 15, 2025 and

semiannually thereafter on April 15 and October 15 in each year to maturity. Interest on the Notes will remain payable at maturity on October 30, 2025. Such interest will be payable by check drawn on the Paying Agent and mailed to the registered owner on the maturity date of the Notes and on each interest payment date for the Bonds at the address as shown on the registration books of the Paying Agent as of the last day of the calendar month preceding each such interest payment date. Bonds and Notes may be transferred or exchanged at no cost to the registered owner at any time prior to maturity at the office of the Paying Agent for the Bonds and the Notes of the same series if any other authorized denomination or denominations in the same aggregate principal amount upon the terms set forth in respective Certificates of Determination executed by the Town Supervisor authorizing the sale of the Bonds and the Notes and fixing the details thereof and in accordance with the Local Finance Law. The Paying Agent shall not be obligated to make any such transfer or exchange of the Bonds between the fifteenth day of the calendar month preceding an interest payment date and such interest payment date

MARKET MATTERS AFFECTING FINANCINGS OF THE MUNICIPALITIES OF THE STATE

The financial condition of the Town as well as the market for the Bonds and the Notes could be affected by a variety of factors, some of which are beyond the Town's control. There can be no assurance that adverse events in the State, including, for example, the seeking by a municipality of remedies pursuant to the Federal Bankruptcy Act or otherwise, will not occur which might affect the market price of and the market for the Bonds and the Notes. If a significant default or other financial crisis should occur in the affairs of the State or at any of its agencies or political subdivisions thereby further impairing the acceptability of obligations issued by borrowers within the State, both the ability of the Town to arrange for additional borrowings and the market for and market value of outstanding debt obligations, including the Bonds and Notes, could be adversely affected.

The Town does not receive a significant amount of financial assistance from the State in the form of State aid. Should the Town fail to receive State aid expected from the State in the amounts and at the times expected, occasioned by a delay in the payment of such monies and not by a cut in State aid, the Town is authorized by the Local Finance Law to provide operating funds by borrowing in anticipation of the receipt of uncollected State aid.

CYBER SECURITY

The Town, like many other public and private entities, relies on technology to conduct its operations. As a recipient and provider of personal, private, or sensitive information, the Town faces multiple cyber threats including, but not limited to, hacking, viruses, malware and other attacks on computer and other sensitive digital networks and systems. To mitigate the risk of business operations impact and/or damage from cyber incidents or cyber-attacks, the Town invests in various forms of cybersecurity and operational controls; however, no assurances can be given that such security and operational control measures will be completely successful to guard against cyber threats and attacks. The results of any such attack could impact business operations and/or damage Town digital networks and systems and the costs of remedying any such damage could be substantial.

TAX MATTERS

In the opinion of Bond Counsel, based on existing statutes, regulations, administrative rulings and court decisions and assuming compliance by the Town with certain covenants and the accuracy of certain representations, interest on the Bonds and Notes is excluded from gross income for federal income tax purposes. Bond counsel is of the further opinion that interest on the Bonds and Notes is not an "item of tax preference" for purposes of the Federal alternative minimum tax on individuals; however, the Internal Revenue Code of 1986, as amended (the "Code"), imposes a federal corporate alternative minimum tax equal to 15 percent of the "adjusted financial statement income" of corporations (other than S corporations, regulated investment companies and real estate investment trusts) having an average annual "adjusted financial statement income" for the 3-taxable-year period ending with the tax year that exceeds \$1,000,000,000. Interest on tax-exempt obligations such as the Bonds and Notes is included in the computation of a corporation's "adjusted financial statement income".

The Code also imposes various limitations, conditions and other requirements which must be met at and subsequent to the date of issue of the Bonds and Notes in order that interest on the Bonds and Notes will be and remain excluded from gross income for federal income tax purposes. Included among these requirements are restrictions on the investment and use of proceeds of the Bonds and Notes and in certain circumstances, payment of amounts in respect of such proceeds to the United States. Failure to comply with the requirement of the Code may cause interest on the Bonds and Notes to be includable in gross income for purposes of federal income tax, possibly from the date of issuance of the Bonds and Notes. In the Arbitrage and Use of Proceeds Certificate of the Town to be executed in connection with the issuance of the Bonds and Notes, the Town will covenant to comply with certain procedures and it will make certain representations and certifications, designed to assure satisfaction of

the requirements of the Code with respect to the Bonds and Notes. The opinion of Bond Counsel assumes compliance with such covenants and the accuracy, in all material respects, of such representations and certificates.

Prospective purchasers of the Bonds and Notes should be aware that ownership of the Bonds and Notes, and the accrual or receipt of interest thereon, may have collateral federal income tax consequences for certain taxpayers, including financial institutions, property and casualty insurance companies, S corporations, certain foreign corporations, individual recipients of Social Security or Railroad benefits and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry such obligations. Prospective purchasers should consult their tax advisors as to any possible collateral consequences of their ownership of the Bonds and Notes and their accrual or receipt of interest thereon. Bond Counsel expresses no opinion regarding any such collateral federal income tax consequences.

The Bonds and Notes **will not be** designated as "qualified tax-exempt obligations" within the meaning of, and pursuant to Section 265(b)(3) of the Code.

In the opinion of Bond Counsel, interest on the Bonds and Notes is exempt from personal income taxes imposed by the State or any political subdivision thereof, including The City of New York.

Bond Counsel has not undertaken to determine (or to inform any person) whether any actions taken (or not taken) or events occurring (or not occurring) after the date of issuance and delivery of the Bonds and Notes may affect the tax status of interest on the Bonds and Notes.

No assurance can be given that any future legislation or governmental actions, including amendments to the Code or State income tax laws, regulations, administrative rulings, or court decisions, will not, directly or indirectly, cause interest on the Bonds and Notes to be subject to federal, State or local income taxation, or otherwise prevent Bondholders and Noteholders from realizing the full current benefit of the tax status of such interest. Further, no assurance can be given that the introduction or enactment of any such future legislation, or any judicial decision or action of the Internal Revenue Service or any State taxing authority, including, but not limited to, the promulgation of a regulation or ruling, or the selection of the Bonds and Notes for audit examination or the course or result of an audit examination of the Bonds and Notes or of obligations which present similar tax issues, will not affect the market price, value or marketability of the Bonds and Notes. Prospective purchasers of the Bonds and Notes should consult their own tax advisors regarding the foregoing matters.

All summaries and explanations of the law herein do not purport to be complete and reference is made to such laws for full and complete statements of their provisions.

ALL PROSPECTIVE PURCHASERS OF THE BONDS AND NOTES SHOULD CONSULT WITH THEIR TAX ADVISORS IN ORDER TO UNDERSTAND THE IMPLICATIONS OF THE CODE AS TO THE TAX CONSEQUENCES OF PURCHASING OR HOLDING THE BONDS AND NOTES.

LEGAL MATTERS

The legality of the authorization and issuance of the Bonds and the Notes will be covered by the approving legal opinion of Harris Beach PLLC, Buffalo, New York, Bond Counsel to the Town. Such legal opinion will state that in the opinion of Bond Counsel (i) the Bonds and the Notes have been authorized and issued in accordance with the Constitution and statutes of the State of New York and constitute valid and legally binding general obligations of the Town, all the taxable property within which is subject to the levy of ad valorem taxes to pay the Bonds and the Notes and interest thereon, subject to certain applicable statutory limitations imposed by Chapter 97 of the New York Laws of 2011, as amended (see "TAX INFORMATION -Tax Levy Limitation Law" in Appendix A hereto); provided, that the enforceability (but not the validity) of the Bonds and the Notes may be limited by any applicable existing or future bankruptcy, insolvency or other law (State or Federal) affecting the enforcement of creditors' rights; (ii) under existing statutes, regulations, administrative rulings and court decisions, interest on the Bonds and the Notes is excluded from the gross income of the owners thereof for Federal income tax purposes, is not an "item of tax preference" for purposes of the Federal alternative minimum taxes imposed on individuals, however, interest on the Bonds and the Notes held by certain corporations that are subject to the Federal corporate alternative minimum tax is included in the computation of "adjusted financial statement income" for purposes of the Federal alternative minimum tax imposed on such corporations; (iii) interest on the Bonds and the Notes is exempt from personal income taxes imposed by the State of New York or any political subdivision thereof (including The City of New York); and (iv) based upon Bond Counsel's examination of law and review of the arbitrage and use of proceeds certificate executed by the Town Supervisor of the Town pursuant to Section 148 of the Code and the regulations thereunder, the facts, estimates and circumstances as set forth in said arbitrage certificate are sufficient to satisfy the criteria which are necessary under Section 148 of the Code to support the conclusion that neither the Bonds and the Notes will be "arbitrage bonds" within the

meaning of said section, and no matters have come to Bond Counsel's attention which makes unreasonable or incorrect the representations made in said arbitrage certificate. Bond Counsel expresses no opinion regarding Federal or State income tax consequences arising with respect to the Bonds and the Notes.

Such legal opinion will also state that (i) in rendering the opinions expressed therein, Bond Counsel has assumed the accuracy and truthfulness of all public records, documents and proceedings examined by Bond Counsel which have been executed or certified by public officials acting within the scope of their official capacities, and has not verified the accuracy or truthfulness thereof, and Bond Counsel also has assumed the accuracy of the signatures appearing upon such public records, documents and proceedings and such certifications; (ii) the scope of Bond Counsel's engagement in relation to the issuance of the Bonds and the Notes, as applicable, has extended solely to the examination of the facts and law incident to rendering the opinions expressed therein; (iii) the opinions expressed therein are not intended and should not be construed to express or imply any conclusion that the amount of real property subject to taxation within the boundaries of the Town together with other legally available sources of revenue, if any, will be sufficient to enable the Town to pay the principal of and interest on the Bonds and the Notes as the same become due and payable; (iv) reference should be made to the Official Statement for factual information which, in the judgment of the Town, would materially affect the ability of the Town to pay such principal and interest; and (v) while Bond Counsel has participated in the preparation of the Official Statement, Bond Counsel has not verified the accuracy, completeness or fairness of the factual information contained therein and, accordingly, no opinion is expressed by Bond Counsel as to whether the Town, in connection with the sale of such Bonds and Notes, has made any untrue statement of a material fact, or omitted to state a material fact necessary in order to make any statements made, in the light of the circumstances under which they were made, not misleading.

Prior Disclosure History

The Town has been in compliance in all material respects with its previous undertakings made pursuant to Rule 15c2-12 over the past five years.

RATINGS

**TOWN OF AMHERST
ERIE COUNTY, NEW YORK**

 Town Supervisor

DATED: October ____, 2024

APPENDIX A

THE TOWN

General Information

The Town of Amherst (the “Town”), a suburban, residential town in Erie County (the “County”), adjacent to the City of Buffalo (the “City”), is the ninth most populous town in the State of New York (the “State”). The Town has a land area of approximately 54 square miles. Since 2010, the population of the Town has grown by 0.92% to the current population level of 131,063 according to the 2023 U.S. Census estimate. The incorporated Village of Williamsville, which has its own independent form of government, is located wholly within the Town and has a land area of 1-1/2 square miles and a population of 5,300.

The Town's tax base and population growth can be attributed in part to the suburbanization of Buffalo's metropolitan area and to the development of a \$550 million State University of New York at Buffalo campus within the Town. The 1,000 acre campus serves 29,940 students and has a faculty and staff in excess of 9,600.

Conrail, major airlines operating from the Buffalo Niagara International Airport, the New York State Thruway, the Youngman and Lockport expressways, the Niagara Frontier Transit Authority and a network of highways provide transportation to and from the area.

The Government

The Town was established in 1818 by the State Legislature. The taxable real property in the Village of Williamsville is subject to taxation by the Town for certain purposes. In addition, four independently governed school districts, Williamsville Central School District, Sweet Home Central School District, Amherst Central School District and Clarence Central School District, are located in whole or in part within the Town and rely upon their own taxing powers granted by the State to raise revenues for school district purposes. The school districts use the Town's assessment roll as their basis for taxation of property within the Town.

Subject to the provisions of the State Constitution, the Town operates pursuant to the Town Law, the Local Finance Law, other laws generally applicable to the Town, and any special laws applicable to the Town, and is classified as a first class Town. Under such laws, there is no authority for the Town to have a charter, but pursuant to the Town Law and other laws generally applicable to home rule, the Town may, from time to time, adopt local laws.

The legislative power of the Town is vested in the Town Board, which consists of five members, including the Supervisor, who is the chief executive officer of the Town, elected for a term of four years. The remaining members of the Town Board are elected two and three at a time every two years to four-year terms. All the Town Board members are elected at large. The Town has two judges that are elected to 4-year terms. All elected public officers for the Town are limited to two consecutive terms of four years each while serving in the same public office.

The Town Clerk and the Town Highway Superintendent are elected for four-year terms. The Town Board appoints the Assessor, the Town Comptroller, the Town Engineer, the Town Attorney, and the Deputy Town Attorneys.

The position of Town Comptroller has the responsibility for the overall coordination of the Town's finances. The Town Comptroller reports to the Town Board and shares the responsibility for budgeting, investment, debt management, cash flow, payroll, accounting and reporting of all Town transactions.

Town Services

The Town purchases its electricity and natural gas through Erie County, New York, Public Works Department through an energy co-operative.

The Erie County Water Authority (the “Authority”) supplies water for the Town and is responsible for the maintenance of the necessary facilities. The Authority charges the cost for the water service including maintenance costs, against the property or property owners served. The Town has a number of special assessment water districts that are responsible for the financing and construction of the water transmission lines within their respective boundaries.

Sanitary sewer services are provided primarily throughout the Town by special assessment sewer districts. The Town is responsible for the financing, construction and maintenance of the facilities located within them.

Police protection is provided by the Town Police Department. Fire protection is provided by Town Fire Protection Districts, which contract with local volunteer units to provide such service.

Employees

The Town provides services through 639 full-time employees, represented by the bargaining units listed below and approximately 71 of whom are not represented. Town employees are represented by several labor organizations, which are listed below.

<u>Bargaining Unit</u>	<u># of Members</u>	<u>Contract Expiration</u>

Employee Pension Benefits

Substantially all employees of the Town are members of the New York State and Local Employees’ Retirement System (the “ERS”) and Local Police and Fire Retirement System (“PFRS”) (collectively the systems are referred to together hereinafter as the "Retirement Systems" where appropriate.) The Retirement Systems are a cost-sharing multiple public employer retirement systems. The obligations of employers and employees to contribute and the benefits to employees are governed by the New York State Retirement and Social Security Law (the “Retirement System Law”). The Retirement Systems offer a wide range of plans and benefits which are related to years of service and final average salary, vesting of retirement benefits, death and disability benefits and optional methods of benefit payments. As of April 9, 2022, Tier V and VI members only need five years of service credit to be vested. This affects members of both ERS and PFRS. Previously, Tier V and VI members needed 10 years of service to be eligible for a service retirement benefit. Now all Tier members’ benefits generally vest after five years of credited service. The Retirement System Law generally provides that all participating employers in the Retirement Systems are jointly and severally liable for any unfunded amounts. Such amounts are collected through annual billings to all participating employers. Generally, all employees, except certain part-time employees, participate in the Retirement Systems. The Retirement Systems are non-contributory with respect to members hired prior to July 27, 1976. All members hired on or after July 27, 1976 through and including December 31, 2009, must contribute three percent of their gross annual salary toward the costs of retirement programs until they attain ten years in the Retirement Systems, at such time contributions become voluntary. As discussed herein, members hired after January 1, 2010 must contribute three percent of their gross annual salary toward the costs of retirement programs for the duration of their employment.

Pension reform enacted by New York State changed the billing cycle for employer contributions to the ERS retirement system to match budget cycles of the Town. Under the previous method, the Town was not

provided with the required payment until after its budget was implemented. Under the reforms implemented, the employer contribution for a given fiscal year will be based on the value of the pension fund on the prior April 1, instead of the following April 1. As a result, the Town is notified of and can include the actual cost of the employer contribution in its budget. The law also requires a minimum payment of 4.5% of payroll each year, including years in which investment performance of the fund would make a lower employer contribution possible. The pension payment date for all local governments was changed from December 15 to February 1.

The New York State Retirement System has advised the Town that municipalities can elect to make employer contribution payments in the December or the following February, as required. If such payments are made in the December prior to the scheduled payment date in February, such payments may be made at a discounted amount. The Town prepaid its employer contributions each December in 2004 through 2023.

On December 10, 2009, then Governor Paterson signed into law a new Tier V. The law is effective for new ERS employees hired after January 1, 2010. ERS and PFRS employees now contribute 3% of their salaries. There is no provision for these contributions to cease after a certain period of service.

On March 16, 2012, Governor Cuomo signed into law the new Tier VI pension program, effective for ERS and PFRS employees hired after April 1, 2012. The Tier VI legislation provides, among other things, for increased employee contribution rates of between 3% and 6%, an increase in the retirement age from 62 to 63 years, a readjustment of the pension multiplier, and a change in the time period for final average salary calculation from 3 years to 5 years. Tier VI employees will vest in the system after ten years of employment and will continue to make employee contributions throughout employment.

The following schedule reflects the Town's contribution to each of the Retirement Systems for the last three audited fiscal years and the budgeted amount for the current fiscal year.

Fiscal Year	ERS	PFRS
<u>Ending December 31:</u>	<u>Contribution</u>	<u>Contribution</u>
2024 (Budgeted)	\$ 4,752,646	\$6,840,000
2023	3,965,232	5,971,425
2022	3,773,027	5,802,111
2021	4,581,512	5,646,272

Due to significant capital market declines in the recent past, the State's Retirement Systems portfolios have experienced negative investment performance and severe downward trends in market earnings. As a result of the foregoing, the employer contribution rates for the State's Retirement Systems will be higher than the minimum contribution rate established by law. To mitigate the expected increases in the employer contribution rates, legislation was enacted that authorizes local governments and school districts to amortize a portion of their required Retirement Systems pension contribution payments with the Retirement Systems. The legislation also requires that those local governments and school districts choosing to amortize their ERS and PFRS pension contribution payments with the Retirement Systems to reserve funds for future payment increases that are a result of fluctuations in pension plan performance. The Town funds its Annual Required Contribution (ARC) for both plans on an annual basis. The Town has no plans to enter into the pension smoothing program.

According to OSC, the 2024-25 Fiscal Year estimated average employer contribution rate for ERS will increase from 13.1% to 15.2% of payroll. The estimated average employer contribution rate for PFRS will increase from 27.8% to 31.2% of payroll.

Other Post-Employment Benefits

In June 2015, GASB released GASB Statement No. 75 ("GASB 75"), which was required to be implemented in the Town's 2023 fiscal year. GASB 75 replaces the requirements of GASB 45 and establishes new standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. Under GASB 75, governments must report a

liability on the face of the financial statements for the post-employment benefits (“OPEB”) that they provide; such liability can no longer be a footnote as was allowed under GASB 45.

During the year ended December 31, 2023 the Town implemented GASB statements No. 75.

Should the Town be required to fund its unfunded actuarial accrued OPEB liability, it could have a material adverse impact upon the Town’s finances and could force the Town to reduce services, raise taxes or both. At the present time, however, there is no current or planned requirement for the Town to partially fund its actuarial accrued OPEB liability. At this time, New York State has not developed guidelines for the creation and use of irrevocable trusts for the funding of OPEB. As a result, the Town has decided to continue funding the expenditure on a pay-as-you-go basis.

Legislation has been proposed to create an optional investment pool to help the State and local governments fund retiree health insurance and other post-employment benefits. The proposed legislation would authorize the creation of irrevocable OPEB trusts so that the State and its local governments can help fund their OPEB liabilities, establish an OPEB investment fund in the sole custody of the State Comptroller for the investment of OPEB assets of the State and participating eligible local governments, designate the president of the Civil Service Commission as the trustee of the State’s OPEB trust and the governing boards as trustee for local governments and allow school districts to transfer certain excess reserve balances to an OPEB trust once it is established. Under the proposed legislation, there are no limits on how much a local government can deposit into the trust. The Town cannot predict at this time whether such proposed legislation will be enacted into law.

FINANCIAL FACTORS

Independent Audit

The annual financial statements of the Town are audited by Drescher & Malecki, LLP, independent certified public accountants. The Town is also subject to periodic audit by the State Comptroller’s Office. Appendix B to this Official Statement presents a summary of the results of operations for the last five fiscal years and budget summary for the 2024 fiscal year. The Town also prepares an Annual Financial Report Update Document (unaudited) (“AUD”) that is filed with the Office of the State Comptroller. Said AUD is not prepared in accordance with GAAP. An electronic link to the audited financial statements for the 2023 fiscal year is set forth in Appendix C.

Fund Structure and Accounts

The financial statements of the Town conform to those prescribed by generally accepted accounting principles as applied to governmental units.

Revenues are recorded when measurable and available to pay liabilities of the current period. Revenues susceptible to accrual include real property taxes, state and federal aid, sales tax and certain user fees such as water and sewer charges.

Expenditures are recorded when the fund liability is incurred. Exceptions to this rule are (1) prepaid and most inventory-type items are generally recognized at the time of disbursement; (2) unmatured interest on

general long-term debt which is recognized when due; and (3) compensated absences, such as vacation and sick leave which vests or accumulates, and is charged as an expenditure when paid.

The encumbrance method of accounting is employed in the governmental funds, whereby commitments for contracts and outstanding purchase orders are reported as a reservation of fund balance. Such commitments are recorded as expenditures in the accounting period in which the liability is incurred.

The General Fund is the principal fund of the Town and includes all operations not required to be recorded in other funds. Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. These funds include Town Outside Village, Special Grant, Highway and Special Districts. Special Districts have been established for sanitary sewer, storm drainage, community environment, lighting, water and fire protection.

Revenues

The Town derives its revenues from a tax levy on real property, State aid from non-property taxes like the County sales tax, and from departmental fees and charges. A summary of such revenues for the Town's General and Special Revenue Funds over the last five fiscal years is presented in "Statement of Revenues, Expenditures and Changes in Fund Balances" in Appendix B. (See also "Tax Levy Limitation Law" herein).

Real Property Tax. The Town derives a major portion of its revenues from a tax on real property. (See "Statement of Revenues, Expenditures and Changes in Fund Balance" in Appendix B herein). Based on audited results, property taxes accounted for 43.6% of total General Fund revenues for the fiscal year ended December 31, 2023.

The following table sets forth total General Fund revenues and real property tax revenues during the last five audited fiscal years and the amount budgeted for the current fiscal year.

Sales Taxes. The County is authorized to and levies a sales and compensatory use tax of 4.75%, a portion of which is shared with the Town, in addition to the 4% tax levied by the State. Such sales tax collections in New York are administered by the State Tax Commissioner and the proceeds are paid to the County quarterly. The Town receives quarterly payments from the County.

If the State should experience difficulty in borrowing funds in anticipation of the receipt of State taxes in order to pay State aid to municipalities and school districts in the State, including the Town, in any year, the Town may be affected by a delay in the receipt of State aid until sufficient State taxes have been received by the State to make State aid payments. Additionally, if the State should not adopt its budget in a timely manner, municipalities and school districts in the State, including the Town, may be affected by a delay in the payment of State aid.

The State is not constitutionally obligated to maintain or continue State aid to the Town. No assurance can be given that present State aid levels will be maintained in the future. There can be no assurance that the State’s financial position will not change materially and adversely from current projections. State budgetary restrictions which eliminate or substantially reduce State aid could have a material adverse effect upon the Town, requiring either a counterbalancing increase in revenues from other sources to the extent available, or a curtailment of expenditures. (See also “Market Factors Affecting Financings of the State and Municipalities of the State”, herein.)

The State receives a substantial amount of federal aid for health care, education, transportation and other governmental purposes, as well as federal funding to respond to, and recover from, severe weather events and other disasters. Many of the policies that drive this federal aid may be subject to change under the federal administration and the current Congress. Current federal aid projections, and the assumptions on which they rely, are subject to revision in the future as a result of changes in federal policy.

Should the Town fail to receive State aid expected from the State in the amounts and at the times expected, occasioned by a delay in the payment of such monies or by a mid-year reduction in State aid, the Town is

authorized by the Local Finance Law to provide operating funds by borrowing in anticipation of the receipt of uncollected State aid.

Other Revenues

Community Development Block Grants provide another revenue source for the Town. The Town receives these funds in accordance with a contract with the United States Department of Housing and Urban Development whereby grant assistance is provided for expenditures of eligible activities under Title I of the Housing and Community Development Act of 1974, as amended. These are accounted for as special revenue funds.

Historically, the Town has realized surplus funds from operations. The unappropriated fund balance has, in part, been used, from time to time during the course of a fiscal year to finance supplemental appropriations for unanticipated Town needs. A portion of the fund balance has always been designated as an appropriation to fund the subsequent years' expenditures.

Budget Process

The Supervisor, acting as budget officer with the assistance of the Town Comptroller, prepares a preliminary budget and presents it to the Town Clerk on September 30th. Subsequent to the budget hearing, revisions, if any, are made and the budget is then adopted by the Town Board as its final budget for the coming calendar year. The preliminary budget, as submitted or amended, shall be finally adopted by resolution of the Town Board not later than November 20th. The budget is not subject to voter approval, but the tax levy associated with each budget is subject to the provisions of the Tax Levy Limitation Law. (See "*Tax Levy Limitation Law*" herein).

Appendix B sets forth a summary of the Town's 2023 and 2024 General Fund budgets and a summary of the budgets adopted for all funds including special districts within the Town.

Investment Policy

Pursuant to State law, including Sections 10 and 11 of the General Municipal Law (the "GML"), the Town is generally permitted to deposit moneys in banks and trust companies located and authorized to do business in the State. All such deposits, including special time deposit accounts and certificates of deposit, in excess of the amount insured under the Federal Deposit Insurance Act, are required to be secured in accordance with the provisions of and subject to the limitations of Section 10 of the GML.

The Town may also temporarily invest moneys in: (1) obligations of the United States of America; (2) obligations guaranteed by agencies of the United States of America where the payment of principal and interest are guaranteed by the United States of America; (3) obligations of the State of New York; (4) with the approval of the New York State Comptroller, in tax anticipation notes or revenue anticipation notes issued by any municipality, school district, or district corporation, other than those notes issued by the Town; (5) certificates of participation issued by political subdivisions of the State pursuant to Section 109-b(10) of the GML; (6) obligations of a New York public benefit corporation which are made lawful investments for municipalities pursuant to the enabling statute of such public benefit corporation; or (7) in the case of moneys held in certain reserve funds established by the Town pursuant to law, in obligations of the Town.

All of the foregoing instruments and investments are required to be payable or redeemable at the option of the owner within such times as the proceeds will be needed to meet expenditures for purposes for which the moneys were provided and, in the case of instruments and investments purchased with the proceeds of bonds or notes, shall be payable or redeemable in any event, at the option of the owner, within two years of the date of purchase. Unless registered or inscribed in the name of the Town, such instruments and investments must be purchased through, delivered to and held in custody of a bank or trust company in the State pursuant to a written custodial agreement as provided in Section 10 of the GML.

The Town Board has adopted an investment policy and such policy conforms with applicable laws of the State governing the deposit and investment of public moneys. All deposits and investments of the Town are made in accordance with such policy.

The State Comptroller's Fiscal Stress Monitoring System

The New York State Comptroller has reported that New York State's school districts and municipalities are facing significant fiscal challenges. As a result, the Office of the State Comptroller has developed a Fiscal Stress Monitoring System ("FSMS") to provide independent, objectively measured and quantifiable information to school district and municipal officials, taxpayers and policy makers regarding the various levels of fiscal stress under which the State's school districts and municipalities are operating.

The fiscal stress scores are based on financial information submitted as part of each school district's ST-3 report filed with the State Education Department annually, and each municipality's annual report filed with the State Comptroller. Using financial indicators that include year-end fund balance, cash position and patterns of operating deficits, the system creates an overall fiscal stress score which classifies whether a school district or municipality is in "significant fiscal stress", in "moderate fiscal stress," as "susceptible to fiscal stress" or "no designation". Entities that do not accumulate the number of points that would place them in a stress category will receive a financial score but will be classified in a category of "no designation." This classification should not be interpreted to imply that the entity is completely free of fiscal stress conditions. Rather, it means that the entity's financial information, when objectively scored according to the FSMS criteria, did not generate sufficient points to place them in one of the three established stress categories.

The most current applicable report of the State Comptroller designates the Town as "No Designation".

New York State Comptroller's Audit

The financial affairs of the Town are subject to periodic compliance reviews by the Office of the State Comptroller (OSC) to ascertain whether the Town has complied with the requirements of various State and federal statutes.

An audit conducted by OSC was released on February 2019. The purpose of the audit was to assess whether municipalities' and school districts that utilize aggregators for energy purchases are ensuring they are procuring electricity and natural gas at the lowest prices. The complete report can be obtained from OSC's website.

The most recent audit conducted by OSC was released on September 22, 2023. The purpose of the audit was to determine whether Town of Amherst employees and elected officials completed annual sexual harassment prevention training. The complete report can be obtained from OSC's website <https://www.osc.state.ny.us/files/local-government/audits/2023/pdf/amherst-town-s9-23-9.pdf>

TAX INFORMATION

Real Property Tax Collection Procedures and History

The Town Clerk collects the County and school district taxes, as well as, the General Town and Special District levies. Pursuant to the Erie County Tax Act, any uncollected items are deducted from the amount returned to the County and the County assumes the responsibility for obtaining payment. Therefore, before

the tax rolls are returned to the County at the end of the tax collection period (August 31st), the Town Clerk pays in full to the Town, the amount of the General Fund, Town Highway and Special District levies.

The Town employs the one-payment tax system. Taxes are due January 1, payable without penalty to February 15. Penalties are imposed as follows: 1.5% on payments made prior to March 1st, 3% on payments made prior to March 16th, 4.5% on payments made prior to April 1st, 6% on payments made prior to April 16th, 7% on payments made prior to May 1st, and 1.5% on payments made each month thereafter. After June 30, when the rolls are turned over to the County, all taxes are payable to the County with an additional penalty to date of payment.

The following table sets forth the tax collection record of the Town, Highway and Special District levies, and County levies for the past five fiscal years and for the current fiscal year.

Tax Levy Limitation Law

Prior to the enactment of Chapter 97 of the New York Laws of 2011, as amended (the "Tax Levy Limitation Law") all the taxable real property within the Town has been subject to the levy of ad valorem taxes to pay the bonds and notes of the Town and interest thereon without limitation as to rate or amount. However, the Tax Levy Limitation Law imposes a tax levy limitation upon the Town for any fiscal year commencing after January 1, 2012 without providing an exclusion for debt service on obligations issued by the Town. As a result, the power of the Town to levy real estate taxes on all the taxable real property within the Town to pay the principal of bonds and notes of the Town and the interest therein, is subject to statutory limitations, imposed by the Tax Levy Limitation Law.

The following is a brief summary of certain relevant provisions of Tax Levy Limitation Law. The summary is not complete and the full text of the Tax Levy Limitation Law should be read in order to understand the details and implications thereof.

The Tax Levy Limitation Law imposes a limitation on increases in the real property tax levy of the Town, subject to certain exceptions. The Tax Levy Limitation Law permits the Town to increase its overall real property tax levy over the tax levy of the prior year by no more than the "Allowable Levy Growth Factor", which is the lesser of one and two-one hundredths or the sum of one plus the Inflation Factor; provided, however that in no case shall the levy growth factor be less than one. The "Inflation Factor" is the quotient of: (i) the average of the 20 National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the coming fiscal year minus the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the prior fiscal year, divided by: (ii) the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the prior fiscal year, with the result expressed as a decimal to four places. The Town is required to calculate its tax levy limit for the upcoming year in accordance with the provision above and provide all relevant information to the New York State Comptroller prior to adopting its budget. The Tax Levy Limitation Law sets forth certain exclusions to the

real property tax levy limitation of the Town, including exclusions for certain portions of the expenditures for retirement system contributions and tort judgments payable by the Town. The governing board of the Town may adopt a budget that exceeds the tax levy limit for the coming fiscal year, only if the governing board of the Town first enacts, by a vote of at least sixty percent of the total voting power of the governing board of the Town, a local law to override such limit for such coming fiscal year.

The Town did not override the tax limit for the 2015 through 2020 and 2022 through 2023 fiscal years. In 2021 and 2024, the Town Board approved overriding the tax levy cap.

The Tax Levy Limitation Law does not contain an exception from the levy limitation for the payment of debt service on either outstanding general obligation bonds or notes of the Town or such indebtedness incurred after the effective date of the Tax Levy Limitation Law. As such, there can be no assurances that the Tax Levy Limitation Law will not come under legal challenge for violating (i) Article VIII, Section 12 of the State Constitution for not providing an exception for debt service on obligations issued prior to the enactment of the Tax Levy Limitation Law, (ii) Article VIII, Section 10 of the State Constitution by effectively eliminating the exception for debt service to general real estate tax limitations, and (iii) Article VIII, Section 2 of the State Constitution by limiting the pledge of its faith and credit by a municipality or school district for the payment of debt service on obligations issued by such municipality or school district.

TOWN INDEBTEDNESS

Constitutional Requirements

The New York State Constitution limits the power of the Town (and other municipalities and school districts of the State) to issue obligations and to otherwise contract indebtedness. Such constitutional limitations include the following, in summary form, and are generally applicable to the Notes.

Purpose and Pledge. The Town shall not give or loan any money or property to or in aid of any individual or private corporation or private undertaking or give or loan its credit to or in aid of any of the foregoing or any public corporation.

The Town may contract indebtedness only for a Town purpose and shall pledge its faith and credit for the payment of principal of and interest thereon.

Payment and Maturity. Except for certain short-term indebtedness contracted in anticipation of taxes, or to be paid in one of the two fiscal years immediately succeeding the fiscal year in which such indebtedness was contracted, indebtedness shall be paid in annual installments commencing no later than two years after the date such indebtedness shall have been contracted and ending no later than the expiration of the period of probable usefulness of the object or purpose (as determined by statute) or, in the alternative, the weighted average period of probable usefulness of the several objects or purposes for which such indebtedness is to be contracted; no installment may be more than fifty per centum in excess of the smallest prior installment unless the Town determines to issue debt amortized on the basis of substantially level or declining annual debt service. The Town is required to provide an annual appropriation for the payment of interest due during the year on its indebtedness and for the amounts required in such year for amortization and redemption of its serial bonds and bond anticipation notes.

General. The Town is further subject to constitutional limitation by the general constitutionally imposed duty of the State Legislature to restrict the power of taxation and contracting indebtedness to prevent abuses in the exercise of such powers. The State Legislature is prohibited by a specific constitutional provision from restricting the power of the Town to levy taxes on real estate for the payment of interest on or principal of indebtedness theretofore contracted. There is no Constitutional limitation on the amount that may be raised by the Town by tax on real estate in any fiscal year to pay the principal of and interest on all indebtedness. However, the Tax Levy Limitation Law imposes a statutory limitation on the Town's power to increase its annual tax levy, unless the Town complies with certain procedural requirements to permit the Town to levy certain year-to-year increases in real property taxes. (See "*Tax Levy Limitation Law*" herein).

Statutory Procedure

In general, the State Legislature has authorized the power and procedure for the Town to borrow and incur indebtedness subject, of course, to the constitutional provisions set forth above. The power to spend money, however, generally derives from other law, including the Town Law and the General Municipal Law.

Pursuant to the Local Finance Law, the Town authorizes the incurrence of indebtedness, including bonds and bond anticipation notes issued in anticipation of such bonds, by the adoption of a bond resolution, approved by at least two-thirds of the members of the Town Board, the finance board of the Town. Certain resolutions may be subject to permissive referendum, or may be submitted to the Town voters at the discretion of the Town Board. If a bond resolution is submitted to the voters by the Town Board, only a three-fifths vote of the Town Board is required for adoption.

Each bond resolution usually authorizes the construction, acquisition or installation of the object or purpose to be financed, sets forth the plan of financing and specifies the maximum maturity of the bonds subject to the legal (Constitution, Local Finance Law and case law) restrictions relating to the period of probable usefulness with respect thereto.

The Local Finance Law provides a twenty-day statute of limitations after publication of a bond resolution which, in effect, estops thereafter legal challenges to the validity of obligations authorized by such bond resolution except for alleged constitutional violations. The Town has complied with such procedure with respect to the bond resolutions adopted in connection with authorization of the Notes prior to the closing date thereof.

Each bond resolution also authorizes the issuance of bond anticipation notes prior to the issuance of serial bonds. Statutory law in New York permits notes to be renewed each year provided that principal is amortized and provided that such renewals do not (with certain exceptions) extend five years beyond the original date of borrowing. However, notes issued in anticipation of the sale of serial bonds for assessable improvements are not subject to such five year limit and may be renewed subject to annual reductions of principal for the entire period of probable usefulness of the purpose for which such notes were originally issued.

In addition, under each bond resolution, the Town Board may delegate, and has delegated, power to issue and sell bonds and notes, to the Supervisor, the chief fiscal officer of the Town.

In general, the Local Finance Law contains similar provisions providing the Town with power to issue general obligation revenue anticipation notes, tax anticipation notes, delinquency notes, and budget notes.

Debt Limit. The Town has the power to contract indebtedness for any Town purpose so long as the principal amount thereof shall not exceed seven per centum of the most recent five-year average full valuation of taxable real estate of the Town and subject to certain enumerated exclusions and deductions such as water and certain sewer facilities and cash appropriations for current debt service. The constitutional method for determining full valuation is by taking the assessed valuation of taxable real estate for the last completed assessment roll and applying thereto the final equalization rate as determined by the State Board of Real Property Services. The State Legislature is required to prescribe the manner by which such rate shall be determined. The average full valuation is determined by taking the sum of full valuations of such last completed assessment roll and the four preceding assessment rolls, and dividing such sum by five.

The following table sets forth the constitutional debt limit of the Town, as of October 9, 2024.

Direct and Overlapping Indebtedness

The real property taxpayers of the Town are responsible for a proportionate share of outstanding debt obligations of the County and other governmental units. Such taxpayers' share of this overlapping debt is based upon the amount of the Town's equalized property values taken as a percentage of each separate units' total values. The table below sets forth both the total outstanding principal amount of debt issued by the Town and the approximate magnitude of the burden on taxable property in the Town of the debt instruments issued and outstanding by such other political units. Authorized but unissued debt has not been included.

LITIGATION

In the normal course of business, the Town is involved in various matters of litigation. In the opinion of the Town Attorney, there is no litigation by or pending against the Town that is not covered by insurance, budgetary appropriations or other provisions which could have a materially adverse impact on the financial condition of the Town.
