

**SUPPLEMENT TO
PRELIMINARY OFFICIAL STATEMENT DATED MAY 21, 2025**

relating to

**EAST AURORA UNION FREE SCHOOL DISTRICT
ERIE COUNTY, NEW YORK**

**\$13,965,665
SCHOOL DISTRICT SERIAL BONDS, 2025**

PLEASE BE ADVISED that the above-referenced Preliminary Official Statement has been updated with the following information:

On page 5, under the heading, “CYBERSECURITY”, the section has been added to update the following information:

The District, like many other public and private entities, relies on technology as an integral part of its day-to-day operations. As a recipient and provider of personal, private, or sensitive information, the District faces multiple cyber threats including, but not limited to: hacking, viruses, malware, and other attacks on computer and other sensitive digital networks and systems. To mitigate the risk of business operations impact and/or damage from cyber incidents or cyber-attacks, the District invests in various forms of cybersecurity and operational controls. These include redundant firewalls, email filtering, extensive use of zero client terminals to reduce the threat of surface attacks, servers locked behind physical locks with limited access, active network monitoring for anomalous traffic, redundant internet access providers, a zero downtime backup of all network data to a second location, and full vetting of third party software for compliance with New York State’s Parents Bill of Rights for Student Data Privacy Act. In addition to the internal protection systems and protocols discussed herein, the District has secured cyber security insurance. The District experienced a data breach through PowerSchool, the software vendor that provides Student Information System (SIS) in December 2024. An independent investigation has been completed by cybersecurity expert CrowdStrike and they did not identify any new or concerning findings. The District also experienced a data breach through InStream, the software vendor that provides Student Information System (SIS) in June 2024. InStream is reaching out to the individuals through Experian to offer them credit and identity monitoring serviced for free, just as PowerSchool did.

It is noted that no assurances can be given that such security and operational control measures will be completely successful to guard against all cyber threats.

On page 8, under the heading, “RATINGS”, the section has been revised to update the following information:

Moody’s Investor Services, Inc. (“Moody’s”) has assigned an underlying rating of “Aa3” to the uninsured outstanding bonded indebtedness of the District, including the Bonds.

The date of this Supplement is May 27, 2025
